Weld County Bright Futures
1400 North 17th Ave
Greeley, CO 80631

Dear Weld County Bright Futures Program,

I was very happy to learn that I eligible for the Bright Futures Program. Thank you for your time and energy running this amazing program. The annual Bright Futures funds will help me in my dream of attending Vanderbilt University! As Student Body President and team captain of three varsity sports, I have worked hard to make a difference at Greeley West High School and our community. I appreciate the community making a difference in my life.

This program will give me the opportunity to attend an elite school, where I plan on majoring in Biology/Pre-Med and minoring in Spanish. I hope to pursue a career in medicine as a doctor.

I know there are multiple community donors for this program, but I also know that it takes a dedicated staff to administer the program. Therefore, I thank both the generous donors and the Weld County workers that make this program a reality. I am excited to begin my time at Vanderbilt in August.

Sincerely,
